Temporary Fencing for Australia & New Zealand

Strongest & Most flexible temporary fencing with fence panels, fence feet and associated accessories are ideal solution to perimeter security, including construction sites, private sites and demolition sites.

FEATURES & BENEFITS

Full Welding & Hand Welding

Skilled worker 360° hand welding for optimum strength & stability.

Comply with Australia Standards

According to AS 4687-2007 Temporary Fencing and Hoarding standard for Australian markets.

Tested & Certified to
Australian Standard
AS4687-2007
Temporary Fencing &
Hoardings

Withstand Harshest Environments

Pre-galvanised or hot dipped galvanised finish for most durability even in harshest environments.

Lightweight Plastic Feet

Independent production of plastic feet with concrete inserted for easy installation and storing.

Large Stocks for Emergent Order

Clean and tidy warehouse for standard specification fences for customers' order.

5 Years Plastic Feet Guarantee

3 to 5 types of anti-ultraviolet Agents added for excellent UV resistance and anti-aging performance.

Mobile & Stable

Canada Temporary Fencing

Strongest & Welded temporary fencing with platy fence feet and shaped top clips, which is major and welcomed portable fencing in Canada and North America. Modular fence panels with plug-in installation are designed for quick and efficient set up and take down.

FEATURES & BENEFITS

Stable Structure

360° full welding by hand and hot dipped galvanized surface treatment make it durable and anti-corrosion.

Easy Installation

Light weight and pre-designed plug-in junction for quick access anywhere on site.

Transparent Vision

Various size of welded mesh opening are visible without any sight blocks.

Versatile

Removable panels with flexible isolation angle for any site needing security or privacy.

OPTIONAL COLORS

RAL 9010 (white), RAL 1021 (yellow),
RAL 5005 (dark blue), RAL 5012 (light blue),
RAL 6005 (dark green), RAL 9005 (black),
RAL 7004 (light gray), RAL 7005 (dark gray),
RAL 3001 (red)

Flexible & Multi-functional Crowd Control Barriers

Crowd control barriers, made of steel pipes, has firm structure and corrosive resistance surface for secure pedestrian, vehicles and equipment safety in the crowds and heavy traffic.

FEATURES & BENEFITS

Colorful for Outdoors

Hot dipped or powder coating surface supplies corrosion resistance and various colors for different use.

Flexible Structure

Combine as many as crowd control barriers you want for your use without any difficult.

Customization Service

Reflective sheets, shade cloth, billboard or signage can be customized for your choice.

Pedestrian & Vehicle Gate

Pedestrian or vehicle gates can be supplied according to your sizes. to your sizes.

Flexible Feet Choice

Fixed or removable feet for choice.
Bridge, flat or wheel removable feet options.

Flexible & Efficient Steel Barricades

Our effective and efficient crowd control barriers in wide range of sizes, colors and feet types can help with managing pedestrian traffic, crowd control and safety. It is ideal solution to construction sites, demonstration, public events, concerts and sport fields.

FEATURES & BENEFITS

Extreme Durability

Pipe material outer frame and infill uprights are strongest in the industry.

Galvanised & Powder Coated Finish

Hot dipped galvanised or powder coated for extremely harsh environments.

Customization Service

Reflective sheets, shade cloth, billboard or signage can be customized for your choice.

Barricades Gate

Pedestrian barricade gates can be supplied according to your sizes.

Flexible Feet Choice

Fixed or removable feet for choice.
Bridge, flat or wheel removable feet options.

TEMPORARY CHAIN LINK FENCE

Anti-Corrosion & Visible Temp Chain Link Fencing

Temporary fencing with chain link mesh infill, which is a major exporting portable fencing to Australia, America, England and Africa market. It is modular and plug-in installation for quick and efficient set up and take down when quickly established barriers are needed.

FEATURES & BENEFITS

Hand Craft Technology

Workers use galvanized wire wrapped the chain link mesh with steel frame together by tension bars and tension bands in a rather tension way.

Stable Fence Frame

360° full welding by hand and hot dipped galvanized surface treatment to prevent cracks and corrosion.

Quick Installation

No need to dig holes or laying foundations, just connect the panel and the feet with a pre-designed plug-in way.

Adaptable

Three types of stable fence feet available can find the best anchor point, even uneven ground, sloping sites.

Australia Standard Pool Guard Temp Pool Fencing

Complying with Australian Standard A.S. 1926.1-2012 – Swimming Pool Safety, temporary pool fencing can secure your pools or spas no matter under construction or current maintenance. Self-closing gate help you stop your toddlers or pets entering the dangerous area accidentally.

FEATURES & BENEFITS

360° Full Hand Welding

Full Welding secures firm and stable structure. Skilled hand welding ensures optimum strength.

Comply with Australia Standard

Strict QC system ensure all fencing are produced according to A.S. 1926.1-2012 Swimming Pool Safety.

**Australian
Certified**

A.S. 1926.1-2012
Swimming Pool Safety

Withstand Harshes Environment

Pre-galvanised or hot dipped galvanised finish for most durability even in harshes environments.

Self-Closing Doors

High quality child or pet guard – self-closing doors – Helps you protect your families far from danger.

Highly Visible & Flexible Temporary Construction Barriers

Robust pre-galvanized steel pipe outer frame and highly visible orange PVC coated chain link mesh fabric with steel flat T stand forms temporary, efficient and flexible site protection barriers.

They are widely used in construction sites, demolition sites, public events and sports fields for crowd control, traffic control, pedestrian safety protection and event management.

FEATURES & BENEFITS

High Visible View

Orange PVC coated chain link mesh fabric for safe and danger reminder.

Galvanised & PVC Coated Finish

Hot dipped galvanised or PVC coated for extremely harsh environments.

Prevent Tripping Hazards

Steel flat feet is superior than bridge feet for stability and safety.

Easy Operation For Temporary Purpose

Removable structure and lightweight for easy installation and remove for temporary use.

Swing & Sliding Temp Fence Gate – Pedestrian & Vehicles

To provide a access way into or out of the restrictive areas. We provide almost all kinds of fencing gates to match with your temporary fencing neither CA temporary fence, AU & NZ temporary welded fence, temporary chain link fence or crowd control barriers.

There are following styles and sizes for different applications.

FEATURES & BENEFITS

Defined Opening Area

Fence gates provide pre-designed entranceway for the contained areas. The opening size can be customized as request.

Multi-Function

Single swing leaf gates for pedestrian and double swing leaf gates for vehicles. And sliding gate for minimum space occupation for actual needs.

Superior Corrosion Resistance

All the gate panels are treated with hot dipped galvanized or colorful powder coating. The service life can be more than 25 years.

Easy Installation

All fence gates are easily removed and mobile installed when necessary. This can be completed by just single worker.

AVAILABLE STYLES

Attractive & Super Safe Steel Tubular Fencing

Steel tubular fence is an ornamental fencing with high defense effect to secure site security in commercial, residential and industrial applications.

It is available for hot dipped galvanised or colorful powder coating for outdoors.

There are a variety of styles and sizes for your high aesthetic & security requirements.

FEATURES & BENEFITS

Solid Welded Structure

360° full welding technology ensures firm structure to prevent being damaged. Skillful welding keeps small welding point.

Strong Anti-Corrosion Surface

Hot dipped galvanized or powder coating surface guarantees more than 25 years life, even in the harshest environments.

Imposing but Generous Appearance

Straight top, wave top, staggered top, or decorative rings added in the vertical picket gap satisfy all your requirements.

Excellent Terrain Adaptability

Custom design and manufacture can make steel fence adapt for any terrains, including uneven or stepped install conditions.

High Strength

Curvy Wire Mesh Fence

Security fencing, also called 3D security fence, and wire mesh fence, is widely used in garden, factory, railway, farmland and residence. Curved wire mesh fence can supply strong strength and rigidity. Besides curves varies according to the fence height to provide optimum strength.

FEATURES & BENEFITS

Corrosion & Rust Resistance

PVC coating & hot dipped galvanized treatments supply durable life.

Strict Quality Control

All the fences sizes are monitored at any time before packaging.

Long Service Life

With firm structure and good coating corrosion and rust resistance.

Beautiful Appearance

Different curve quantity, various colors and different post types.

High Adaptability

Available for soil and concrete in flatlands, slope and mountains.

High Strength and Rigidity

Triangular bending structure makes the fence more stable and rigid.

Superb Strength Perimeter

BRC Fence

Also called roll top fence, it is widely accepted and popular in garage, park and other commercial or private sites. The rolling top and bottom supplies superb strength and rigidity for whole security panel. See-through design will not block beautiful views.

FEATURES & BENEFITS

Rolling Top/Bottom

Special rolled top and bottom for superb strength and rigidity.

V-Clip Connection

Exclusive V shaped clips and bolts & nuts for easy installation.

Accurate Sizes

Strictly test during production & before loading. No Quality Comprise.

Galvanized & Powder Coating

Hot dipped galvanized or powder coating surface for most durable.

Galvanised & Black Tar Star Pickets

Star pickets, also called Y posts or steel fence posts, are flexible fencing support system for site security.

Pickets can be used with wide range fences, including hinge joint field fence, plastic barriers, barbed wire, chicken wires, etc.

Galvanised or black tar dipped in various lengths and weight for choice.

Custom orders are available.

FEATURES & BENEFITS

Sharp Bottom

Easy installation
Firmly fastened
Low damage.

Flat Top

Easy hammer
Labor saving
Fast installation

Galvanized & Black Tar Dipped

Bright surface
Anti-corrosion
Durable lifespan

Flexible Support Fences

Hinge joint field fence.
Chicken wire.
Barbed wire.

OPTIONAL ACCESSORIES

Post Cap

Post Puller

Post Lifter

Hinge Joint Fence

Privacy Guard & UV Stabilization

Chain link fence with Slats

Hot dipped galvanized or PVC coated chain link fencing with HDPE/PVC slats form a privacy and safe guard for your garden, private site and other you wanted areas to block illegal spy and insatiable thieves.

FEATURES & BENEFITS

Quick Installation

No need to dig holes or laying foundations, just connect the panel and the feet with a pre-designed plug-in way.

High Privacy Guard

Slats can secure your private site from thieves and illegal spy. Colorful slats will also decorate your dull fencing.

Colorful for Your Needs

Colorful slats and chain link fencing can be freely customized to decorate your garden and where you need.

UV Rays Resistance

High Quality HDPE material with anti-ultraviolet agent added extends durable life even exposed in burning sun.

TECHNICAL DETAILS

Chain Link Fence

Material: steel wire, carbon steel wire, stainless steel wire.

Surface treatment: electro or hot dipped galvanized, vinyl coated, PVC coated.

Wire gauge: 9, 11, 11-1/2.

Mesh opening: 2", 2-1/4" and 2-3/8".

Standard height: 4', 5', 6', 8', 10' and 12'.

Slats

Material: PVC slat, HDPE slat.

Slat color: Single color & Multiple color combinations.

Available colors: beige, black, brown, green, white, red, sky blue, royal blue, gray and so on.

Slat length: 2" shorter than standard height.

Hinge Joint Knotted Fence With Sturdy Amalgamated Joints

No need cumbersome wraps, twists and ties, hinge joints provide maximum strength and flexible construction. This is a unique field fence for grassland husbandry, ranch, forestry, autobahn and so on.

FEATURES & BENEFITS

Cost Effective

Construction of traditional hinge knotted joint, hinge joint fence is ingenuity but competent for secure your prized animals.

Flexible Structure

Two stiff stay wires wrap together to keep the fence trim and erect. The unique structure can ensure that your herds are active in designated areas but it won't scratch them.

Customized

There are various fence height and mesh opening available for your requirements of lighter or full high tensile, small or large animal, narrow or vast feedlot area.

All-Purpose

Expect for secure your poultry horse, cows, sheep, goats, pigs, deer, hinge joint fence also applied for grassland, farm, sports field, forestry and autobahn etc.

Corrosion Resistant

Corral Panels

Corral panels, also called horse panels, cattle panels, are made from low carbon steel or galvanized steel pipes. The horizontal rails and frames are fully welded together to form a horse panel. They are divided into round, square and oval rail horse panels according to rail shape. They are widely used to raise horses, cattle and other livestock or prevent them from being injured in stable, farmland, pasture, ranchette, arenas, etc.

FEATURES & BENEFITS

Safe

Smooth surface without burrs won't make livestock get injured.

Sturdy

Pipes are completely welded together for optimum structure.

Anti-Corrosion

The post of horse panels is equipped with rain cap to resist rain erosion.

Corrosion Resistant

Panels surface is hot-dipped galvanized or PVC coating for anti-corrosion.

Attractive

There are round, square and oval rails panels which can be various colors.

Strict Quality Control

All the horse panels sizes are monitored at any time before packaging.

Professional Temporary Hoarding System

Temporary hoardings, also called hoarding panels, steel hoarding panels, are widely used to partition different working areas on your working site, keep the privacy of a special place or keep the public out of dangerous construction sites.

FEATURES & BENEFITS

Temporary

Temporary hoarding panels with on-ground feet are easy to fit for temporary or short term protection.

Privacy & Safety

Invisible hoarding panels are connected together to provide privacy and safety in your needed site.

High Wind Rating

The wind rating of temporary panels is up to 70 mph, which can secure the site from high wind.

Attractive Appearance

Hoardings panels with PVC coating surface treatment can supply various colors for choice.
