

HOT DIPPED GALVANIZED CORRAL PANELS

Tough for Cattle, Safe for Horse

This uniquely design hot dipped galvanized corral panels possess tough & safe structure, smooth surface and portable properties. With continuously welded saddle joints and a superior hot dipped galvanized coating finish, the corral panels can be ensured for years of life.

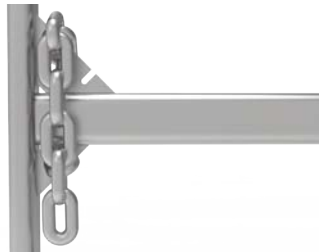

They are designed for years of continuous use for your cows, horses, sheep and even pigs.

Tough enough for cattle The corral panels are composed of a heavy gauge steel tube with a strong vertical center support in the middle to make the panel structure stronger to withstand the fiercely impact from cattle.	Safe enough for horses Enough height and unique design chain lock of corral panels can keep horses safely enclosed and prevent escaping during different growth stage.	Withstand years of continuous use Panels are hot dipped galvanized for maximum corrosion resistance and long life durability.	Smooth and safe surface No burrs on the panels, which may hurt livestock in the corrals. The hot dipped galvanized coating is non-toxic to livestock's safe and health.
Easy set up and dismantle Quick-pin latch system allows these light-weight panels to assemble easily. J-shaped legs supply free-standing on the flat grounds and freedom to move them around without getting stuck to the ground.	Permanent use Corral panels can be fixed to any ground by means of 4 screw hooks for permanent use.	Wide range of use They are perfect for rounding up cattle or sheep in the fields, penning calves, horse runs and arenas, perimeter fencing, cattle gateways and a variety of other uses.	Customized panels Our panels are manufactured according to customers' requirements.

HOT DIPPED GALVANIZED CORRAL PANELS

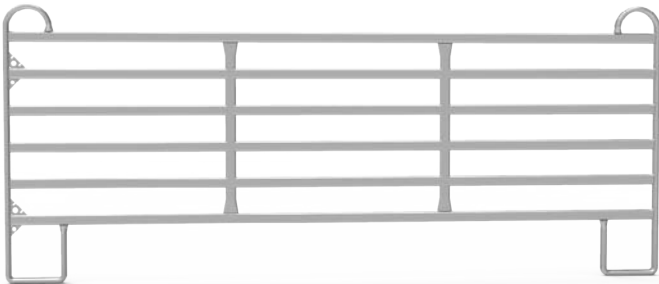

TECHNICAL DETAILS

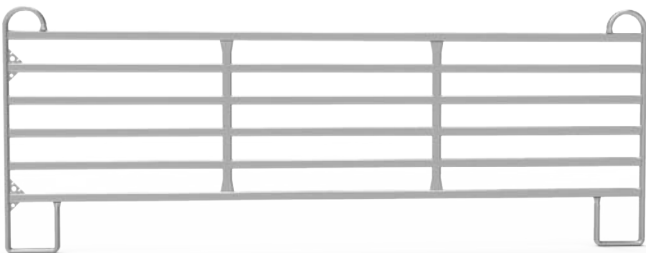

- **Length:** 2.4 m.
- **Height:** 1.75 m.
- 6 horizontal rails
- No vertical center support tube
- **Color:** bright silver.
- **Horizontal rails:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- **Frame tube:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- Chain Connectors Offered

- **Length:** 3.0 m.
- **Height:** 1.75 m.
- 6 horizontal rails
- 1 vertical center support tube
- **Color:** bright silver.
- **Horizontal rails:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- **Frame tube:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- Chain Connectors Offered

- **Length:** 3.6 m.
- **Height:** 1.75 m.
- 6 horizontal rails
- 1 vertical center support tube
- **Color:** bright silver.
- **Horizontal rails:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- **Frame tube:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- Chain Connectors Offered

- **Length:** 4.0 m.
- **Height:** 1.75 m.
- 6 horizontal rails
- 1 vertical center support tube
- **Color:** bright silver.
- **Horizontal rails:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- **Frame tube:** 55 mm × 30 mm × 1.5 mm (T) **OVAL**
- Chain Connectors Offered
