

Professional Temporary Hoarding System

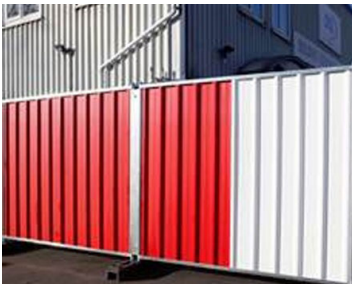

Temporary hoardings, also called hoarding panels, steel hoarding panels, are widely used to partition different working areas on your working site, keep the privacy of a special place or keep the public out of dangerous construction sites.

FEATURES & BENEFITS

Temporary

Temporary hoarding panels with on-ground feet are easy to fit for temporary or short term protection.

Privacy & Safety

Invisible hoarding panels are connected together to provide privacy and safety in your needed site.

High Wind Rating

The wind rating of temporary panels is up to 70 mph, which can secure the site from high wind.

Attractive Appearance

Hoarding panels with PVC coating surface treatment can supply various colors for choice.
